## CLOCK HOUR PROGRAM

### CERTIFICATE PROGRAM FOR BEGINNERS

#### COURSE DESCRIPTION

This certificate program for beginners consists of 600 clock hours of theoretical and practical instruction covering all practices constituting the art of electrology. Students that are accepted into the program will receive first rate instruction in the field of electrolysis permanent hair removal and be able to apply for state licensure in California. The theoretical portion for the Electrology course is taught using the world renowned Academie Dectro Electroepilation Online Course and is followed by 350 hours of hands-on work taught on site at the California Electrology Academy in Corona, California.

At California Electrology Academy we believe in giving our students the most complete, state-of- the-art education encompassing the latest technologies and knowledge available in the field of Electrology today. We believe that exceptional up-to-date personalized instruction from qualified educators, modern equipment and learning tools and networking opportunities are what allow students to excel in our program and go on to become one of the top electrologists in the field.

- Program specially designed to meet the requirements of the California Board of Barbering and Cosmetology.
- 250 hours theory and 350 hours practical.
- After the completion of the online theory, the in-person portion can be completed in as little as 10 weeks.
- Satisfies the State Licensing Requirements of most states.

\*Prospective students must check prior to enrolling if the hours acquired at CEA will satisfy the requirements of their state or country.

#### REQUIREMENTS FOR PROGRAM COMPLETION

In order to be considered for graduation, students completing the 600-hour program must successfully complete the following:

- 1 Complete 600 or more clock hours.
- 2 Attain a minimum of 200 insertion hours.
- 3 Complete all written and practical exams.
- 4 Average a score of 75% or more in the course.
- 5 Complete three (3) mock practical exams (for CA students).
